CONFIGURATIONS

	DocuPrint C3055DX
Performance	
Print speed	35 ppm monochrome and 8 ppm colour A4 size
First page out	11 sec. monochrome and 22 sec. colour
Memory (std./max.)	256/640 MB RAM
Processor	350 MHz
PDL (Page Description Language)	PCL6/ PCL5e/ Adobe PS3 FX-PDF ESC/P
Maximum monthly print volume	65,000 pages
Print Quality	
Print resolution	600 dpi (9600 x 600 image enhancement)
Interface	
Standard	Ethernet 10/100Base-TX, Parallel IEEE1284 , USB 2.0
Paper Handling	
Duplex printing	Standard
Media input capacity Standard	Bypass tray: 155 sheets, Tray 1: 250 sheets
Maximum input capacity Optional	2055 sheets
Media output capacity	550-sheet standard tray face down
Printer Features	
Colour printing access control	Yes (Standard Auditron)
Maximum printing access control	Yes (Standard Auditron)
Internal Hard Disk Drive	Yes (optional)
Device Management	Yes (standard - Embedded Web Server, Remote Printing, Email Alerts)
Warranty	
	One year on-site warranty

The ultimate
in compact design and affordability

A3 Business and Workgroup printing solution

Fuji Xerox Printers

Small footprint
Big capabilities

The DocuPrint C3055DX packs a lot of features in a very small package. It's the world's smallest A3 size mono printer replacement – that also prints in colour. Its versatility makes it perfect for small to medium workgroups that demand performance, flexibility and professional print quality.

Performance and versatility – in one compact design

Flexible and fast, the DocuPrint C3055DX delivers an impressive A4 black and white print speed of 35 ppm with a quick first print out time of just 11 seconds. Faster print speeds means less waiting time and more efficiency.

Fast mono, plus A3 size and colour prints
In addition to delivering impressive mono print speed, the DocuPrint C3055DX gives you the ability to print A3 size, for newsletters or big Excel worksheets, with the added bonus of delivering crisp full-colour prints.

Print everything in-house
Now everything you need can be printed on one single, small-size printer. From postcard size up to A3 size, 60 gsm up to 216 gsm, black and white to colour - you can print everything in-house, saving time and money.

Smallest footprint that will fit any office no matter how small.

534mm

499.5mm

Uncompromising quality

Advanced multi-level screen technology
Fuji Xerox unique multi-level screen technology automatically switches between the image processing methods for different objects such as photos, texts, and graphics in a document, producing optimal quality printing.

Unique NIE technology corrects improperly colour-balanced images
NIE (Natural Image Enhancement) technology automatically corrects the contrast and colour balance of poorly balanced images such as digital photos before printing.
Advanced colour correction by 3D-ACM
Fuji Xerox advanced colour correction technology 3D-ACM ensures that various types of documents (text, photos, presentations, and Web pages) reproduce with optimum colour.

Before *After*

NIE technology automatically corrects dark, improperly balanced images for optimum output quality.
Value-packed features right out-of-the-box

The DocuPrint C3055DX boasts a range of features that deliver even more value. With automatic duplex, you'll save paper and produce professional looking double-sided documents. With the network interface you can share the printer with your colleagues in the office and with PostScript 3 you can print from any environment – and it's all standard 'right out-of-the-box'.
Less waste
Proven Fuji Xerox "elasticity belt/lap transfer technology" and "EA toner" means perfect registration and transfer of toner to the paper. Not only does this deliver superb print quality, but it ensures that over 98% of toner is used for printing and that means less waste and less machine contamination from floating toner particles – it all adds up to greater reliability.

Conventional Toner particles

EA Toner particles

Fuji Xerox "elasticity belt/lap transfer technology" and "EA toner" means perfect registration and transfer of toner to the paper.

Take control

The DocuPrint C3055DX comes with powerful software that enables you to take control of your workflow.

Easier system administration
When the printer is installed in a TCP/IP environment, CentreWare Internet Services lets you check the printer status and configure settings using a web browser on a network computer – you can even check the printer status via e-mail.

Control usage and control costs
Auditron Printer Monitor can be used to control usage, for example setting limits on things like print volume and colour printing, which can help control and reduce your costs.

Expand your horizons

Upgrade to large input capacity of up to 2,055 sheets for less intervention and higher office productivity.

A3 multifunction ready – print, copy and scan with *EASE!*
The DocuPrint C3055DX can be easily upgraded to a powerful copier and scanner. Using the DocuScan C4250 scanner and optional stand, or additional 2 feeder with Castor kit you can scan or copy quality black and white or colour documents up to A3 size.

Information correct at time of printing.
