Affordable power
for the busiest office

A colourful choice...

Fuji Xerox offers a choice of value-packed office devices that deliver the utmost in productivity: The **Phaser 8560** printer gives busy workgroups a fast, affordable, easy-to-use colour printer that can expand from a desktop model to a four-tray, floor-standing powerhouse; the **Phaser 8560MFP** multifunction printer adds top-of-the-line copying, scanning and faxing for all your office document needs.

Solid ink is earth-friendly. It generates 1/40th the waste of a typical colour laser device.

Outstanding colour

The Phaser 8560 printer and the Phaser 8560MFP multifunction printer give you precise details and rich, vibrant colours.

- Count on superior output on everything from cover stock to recycled paper. Confidently handle colour projects in-house and reduce costs and increase efficiency.

- True Adobe PostScript 3 and automatic colour-enhancement tools ensure that colour-intensive documents print reliably and accurately.

- Produce fast, versatile prints for everyday jobs. When you really want to impress, switch to 2400 FinePoint print resolution mode.

- Nothing else on the market offers more consistent, vivid colour. The last page of a large print job looks as good as the first.

Go ahead, get creative. Print on business card stock, postcards, labels, transparencies and more. You can expect the same brilliant output no matter what the media.

What do both products have in common?

Easier to use than colour lasers or inkjets, solid ink delivers high performance, a very low cost of ownership and outstanding print quality.

Colourful, versatile and easy to use

PRINT

Phaser 8560
High-performance printing

- Superfast 30 ppm printing for both colour and black-and-white
- Outstanding print quality and flexible media handling
- Feature packed and cost effective

COLOUR

The impact of colour
Colour attracts, clarifies and sells. It is one of the most effective business tools available.

EASE OF USE

Easy to install, use and manage
Boost productivity with devices that make office life easier.

Phaser 8560MFP
Sophisticated functionality

- Print, copy, scan and fax together in one device
- Multitasking performance
- Advanced fax capabilities

Multiple functions, no waiting

The Phaser 8560MFP will tackle your workload with an array of time-saving tools:

- Access walk-up copying, scanning, or faxing functions when you need them, even while other jobs are printing. Spend your valuable time working, not waiting for your turn.

- See the first page of your copy job in as little as 15 seconds and the first page of your print job in as little as 6 seconds. Print black-and-white and colour at up to 30 ppm.

- Gather all those loose paper documents and scan them straight to your desktop, or to a public or private folder. Organise, edit, and distribute files with powerful onboard scanning tools.

- LAN Fax lets you send faxes directly from your PC.

- An array of productivity tools for all functions is standard.

A colour printer that meets the challenge

The Phaser 8560 printer delivers fast, attention-grabbing results.

- Pick up the pace with a first-page-out print time as fast as 5 seconds. Both black-and-white and colour print at up to 30 ppm.

- A 600 MHz processor and 256 MB of memory (upgradeable to 1 GB) provide the muscle you need for the most intense projects.

- Put off reloading paper, or swapping one size for another, with a combined paper-tray capacity of 625 sheets — a huge stack of paper for a device that sits on a desktop. Add third and fourth trays to increase capacity to 1,675 sheets.

- Handy productivity printing tools are standard, not expensive add-ons: job accounting, booklet printing, image smoothing and many more.

- Automatic two-sided printing saves time and reduces paper costs.

## Superior design and ease of use

Large paper trays let you print more without interruption.

1. *100-sheet Tray 1 for a wide range of custom media and sizes*

2. *Generous 525-sheet Tray 2*

3. *Add one or two 525-sheet trays*
4. *for a total capacity of 1,675 sheets*

An ace up your sleeve:
Scanning tools

Use the power of scanning and your Phaser 8560MFP to efficiently organise, edit and distribute information.

- Scan documents straight to your desktop. Edit them now or store them for access later.

- Scan documents to a public folder. This gets them off your desktop and makes them accessible to anyone.

- Scan documents to password-protected private folders. This allows central storage but restricted access.

Scan to PC
Desktop software

Plus, we include a valuable scanning software bundle with the 8560MFP/X configuration:

Convert: Quickly convert paper and PDF documents into editable and searchable digital documents supporting Microsoft Office applications, with accurate page layout and format.

Organise and share: Quickly and easily scan, annotate, or archive documents in PDF file format. The PDF files can be viewed, accessed and arranged via large, clear thumbnails on the desktop and shared with a simple drag-and-drop.

No-fuss productivity

A simple, cartridge-free design and a host of helpful features make these devices easy to set up, operate and share.

- Streamlined, automated driver installation gets your device up and running in minutes.

- Replenishing ink is as easy as reloading a stapler. There's no mess to clean up and no bulky boxes to store.

- PrintingScout technology monitors your print projects. If a potential issue arises, a handy pop-up alert suggests a remedy.

- Manage, configure and monitor print jobs directly from your computer thanks to the CentreWare IS Embedded Web Server.

- Built-in security tools (standard on 8560DX and all 8560MFP configurations) keep your data safe. Secure Print holds hard-copy output until a PIN is entered, and Hard Drive Overwrite "shreds" data after every job or on request.

A monthly duty cycle of 85,000 pages (170 reams of paper!) guarantees long-lasting reliability and quality for your busy workgroup.
