B/W MULTIFUNCTIONALS  
FOR A4 FORMAT

# DEPENDABLE ALL-ROUNDERS FOR DYNAMIC TEAMS

These MFPs are suited for dynamic teams with high productivity demands. These devices deliver printing speeds of up to 40 ppm and an impressive 40 ipm 75-sheet reversing document processor. Scanning and sending large paper documents electronically is made easier with the integrated file compression function. Thanks to Kyocera's long-life components, these devices can achieve exceptionally low running costs as well as maintain low environmental impact that you would come to expect from a genuine KYOCERA MFP.

- > Up to 40 pages per minute in A4
- > Double-sided print, copy, fax\* and colour scan functionality
- > 75-sheet reversing document processor supporting A6 originals
- > Mobile printing support including AirPrint
- > Up to 6 input trays for various media types
- > Low power consumption (TEC) and low-noise mode
- > Exceptionally low printing costs in its class

\*ECOSYS M354odn only

stands for ECOlogy, ECONomy and SYStem-printing. With long-life components, ECOSYS devices are designed to maximise durability and minimise the total cost of ownership with regards to maintenance, administration and consumables. The cartridge-free system means that only the toner has to be replaced regularly, and the drum units every 500,000 pages. The modular design concept allows you to add workflow-enhancing functions as required. Integrated system software provides long-term cross-network compatibility. Kyocera's long-life components cost you and the environment less.

#### PRESCRIBE

With the Kyocera page design and control language PRESCRIBE, even complex graphics, logos and forms (multipart forms) can be created independently on the system and saved and updated in the printer. Consequently, integration into print files no longer applies. They are only accessed as required and therefore relieve the load on the network.
