

MFC-L9550CDWT

Ultra-efficient professional colour laser with mobile connectivity

Wherever the all-new MFC-L9550CDW goes head-to-head against competitors in the small corporate market, you'll find it comes out on top.

Ideal for workgroups of 20 or more printing up to 2000 pages a month, it offers professional quality colour combined with the reliability and performance of the undisputed number 1 in mono and AIO lasers*.

It also combines exceptional efficiency with our lowest-ever TCO – and it embraces the 'Bring Your Own Device' revolution, with quick, easy wireless connection to mobile devices. So staff and visitors can print to and scan from the MFC-L9550CDW using whatever mobile and tablet device they want.

*Jan-Dec 2013

Target Audience

Small corporate

The new L9000 range moves Brother up a division to take on those heavyweight business users in the Small Corporate market, with features to help their business stand out while reducing total print costs:

Productivity

- Best in class print speeds
- Maximum capacity of 800 sheets between refills
- Super high yield toners to reduce costs

Cost savings

- Our best ever total cost of ownership
- Use up to 75% less paper with automatic 2-sided and booklet printing
- Reduce running costs by up to 20% by allowing only authorised users to access colour printing and utilising the 'pull printing' function on Brother b-guard

Easy Print Management

- Built-in print management for complete control of an entire printer fleet
- Efficient management from one central location using our free BRAdmin software
- Protect sensitive information with PIN controlled printing
