

MFC-J4710DW Technical Specifications

As an integral model in the Print 3.0 range, the MFC-J4710DW is one of our smallest ever inkjet all-in-ones to offer up to A3 printing.

Print 3.0 doesn't mean one upgrade, it means everything is upgraded. Packed with business friendly features the MFC-J4710DW offers the latest in print technology in a sleek, compact machine, to ensure you get the most from your office space.

The MFC-J4710DW utilises landscape print technology, feeding paper through the printer in a landscape format to offer you fast print speeds in a lower profile machine. Print speeds of up to 20ipm (mono) and 18ipm (colour) offer professional quality documents without the wait, whilst high yield ink cartridges, with yields of up to 1,200 pages for a lower cost per page, save you money without compromising on quality.

The MFC-J4710DW offers enhanced document handling with 2-sided scanning via the integrated ADF, 2-sided printing and flexible paper handling with 400 sheet paper capacity and a lower paper tray which can hold up to A3.

Print 3.0 means being able to print from more places and more devices. Print directly from your mobile device with the Brother iPrint&Scan app or wirelessly using Apple AirPrint or Google Cloud Print™. You can also connect directly to the web from your printer in order to scan to or print from Facebook™, FLICKR®, Dropbox, PICASA™ and EVERNOTE™.

All Brother inkjet multifunctional printers incorporate a four individual inks system meaning that you only replace the ink which runs out, reducing waste and saving you money. The MFC-J4710DW complies with the strict ENERGY STAR and Blue Angel environmental standards and ensures low energy consumption, low noise levels and a recycle-friendly design.
