BUILD VOLUME X/Y/Z

The maximum space available for 3D printing either your complete object or a component of your final, assembled, object.

CAMERA

Onboard camera for monitoring your print jobs and sharing pictures of your 3D prints.

LCD INTERFACE

Provides easy, computer-free access to printing menus, commands, and your cloud storage library.

MINIMUM LAYER HEIGHT

The smallest possible depth of filament material the MakerBot Replicator Smart Extruder can lay down per pass. The smaller the layer, the smoother the finish of the 3D printed object. Smoother finishes provide more professional-quality results.

USB

Wired communication technology for directly connecting your MakerBot 3D Printer to a computer.

ETHERNET

Wired communication technology for connecting your MakerBot 3D Printer to your network, allowing you remote control through various MakerBot apps, as well as access to your cloud storage library.

WI-FI COMING SOON

Enables remote control of the MakerBot Replicator 3D Printer through various MakerBot apps and also remote access to your cloud storage library.

USB STICK THUMB DRIVE

Another convenient and secure method of transferring print files from a computer to your MakerBot 3D Printer.

HEATED CHAMBER

Helps you print large, high-quality models with minimal curling.

MAKERBOT® APPS

MAKERBOT® MOBILE

Monitor and control your MakerBot Replicator 3D Printer and access all things MakerBot from your mobile device.

MAKERBOT® DESKTOP

A complete 3D printing solution for discovering, managing, and sharing your 3D prints.

MAKERBOT® PRINTSHOP™

A fun, easy, and free way to create and 3D print all kinds of cool things.

w makerbot.com/apps

MAKERBOT® DIGITIZER™

Quickly turn things in your world into 3D models you can modify, improve, share, and 3D print with the MakerBot® Digitizer™ Desktop 3D Scanner.

w makerbot.com/digitizer

MAKERBOT® DIGITAL STORE

Purchase high-quality, delightful, printable, and paintable digital 3D models and collections at the MakerBot® Digital Store.
