SAVE PAPER

WITH AUTOMATIC
DOUBLE-SIDED PRINTING

**CONNECT TO
MULTIPLE USERS**

WITH WIRELESS NETWORK

Introducing the compact inkjet Multi-Function Centre (MFC) Series with wireless network capability.

Get enhanced functionality with double-sided printing, Automatic Document Feeder and wireless connectivity on the MFC-J625DW.

MULTI-TASKING

WITH PRINT, SCAN,
COPY, FAX CAPABILITIES

MFC-J625DW

The MFC-J625DW offers print, scan, copy and fax capabilities in one stylish, compact machine.

Print professional quality documents in-house – the MFC-J625DW enables you to produce double-sided A4 documents as well as high quality borderless images. Avoid waiting for your documents with impressive print speeds of up to 35ppm monochrome and 27ppm colour (12ppm monochrome and 10ppm colour - Laser comparable).

Share resources across your office by connecting the MFC-J625DW to your existing wireless network. The simple and secure software is designed to ensure a quick and easy setup process.

Print directly from your digital camera with the PictBridge port, or from your media cards without the need to turn on your computer. View, select and edit your images via the 1.9" touchscreen colour LCD display with touch sensitive controls.

Reduce your printing costs with high yield ink cartridges for a lower cost per page, and double-sided printing to lower your paper costs. All Brother inkjet Multi-Function Centres incorporate a four-individual ink system meaning that you only replace the ink which runs out, reducing waste and saving you money.

The MFC-J625DW complies with the strict Energy Star environmental standard, ensuring low energy consumption.
