NO FUSS PRINTING FOR QUALITY RESULTS imageCLASS LBP841Cdn

WORKHORSE PLUS RANGE

– ADVANCE Colour Laser Printer

The imageCLASS LBP841Cdn incorporates everything you need from a printer and more. This reliable machine is perfect for smaller offices, delivering fast, professional results. Its cost-efficient features are also great for both the environment and your budget.

As with all models in Canon's new "LBP Advanced" range, the imageCLASS LBP841Cdn is built from the ground up to complement the existing printing environments of large businesses. It features integrated PCL, MEAP compatibility to allow the embedding of MEAP applications and compatibility with FM Audit & Print Fleet.

Key Features

MEAP-Embedded

With the embedded MEAP environment, users are able to utilise a range of MEAP applications, such as uniFLOW to enhance their workflows and increase productivity.

PCL Compatible

The LBP841Cdn supports PCL, making it ideal for use in large organisations with established print solutions.

Low Power Consumption and Quick Start Up

With Canon's unique On-Demand Fixing System, the LBP841Cdn achieves low power consumption of less than 22.5 watts (average) in standby and quick start-up, with first page out in less than 7.9 seconds. Canon's On-Demand Fixing System enables instantaneous heating of the fusing heater only before printing, saving warm-up time. The LBP841Cdn is always ready to print – saving you time and money.

Enhanced Security

Organisations can now eliminate unnecessary printing, while ensuring the security of sensitive documents with the LBP841Cdn's Secure Print features. This can be configured using the printer's memory for a server-less solution, or run via uniFLOW, which can be embedded onto the machine via MEAP.

eRDS capability

Direct access to e-Maintenance via eRDS, so there is no need for an EMAGENT or iWMC.

Excellent print speeds

With speeds of up to 26ppm, you can be confident you'll get what you need, when you need it.

Versatile media handling

Take control of page size, numbers and stock with ease.

Energy efficient

Standby and sleep modes allow for low power consumption and minimal impact on the environment.

Seamless network connectivity

Integrate with a wide range of business applications.

All-in-one cartridge system

Enjoy quality, cost efficient printouts with low maintenance.

Mobile printing solutions

Canon's PRINT Business app allows streamlined printing of everything from photos to web pages.
